| Model No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | PN260893-MY   |                                            | Page 1 of 17       |
| <div>1. Summary</div> <div>GA-ML8TPoE+ is an Ethernet Switch with management function having 10ports of 10/100/1000BASE-T and SFP extension slot, one of which is selectable.<br/>Ports 1 to 8 support IEEE802.3at/af PoE power supply function.</div> <div>2. Feature</div> <div><div>(1) Ports 1 to 8 are 10/100/1000BASE-T ports corresponding to auto negotiation.<br/>Also their speed and communication mode can be switched by configuration.<br/>Ports 9 and 10 can be used as a 10/100/1000BASE-T port corresponding to auto negotiation or an SFP extension slot exclusively.</div><div>(2) Ports 1 to 8 can supply power conforming with IEEE802.3at and 802.3af. Supplying power up to 30 W per port, and up to 124 W in total is possible.</div><div>(3) Is equipped with PoE auto reboot function, and monitoring, and the switching of the power supply OFF/ON to ports is possible via Ping, LLDP, and the 3 traffic volume methods.</div><div>(4) Is equipped with silent fan control functions, can be set to match the operating environment temperature and power supply, and be used with any of the fan rpm, “High”, “Low” and “Min”.</div><div>(5) All twisted pair ports support straight/cross cable auto sensing function.<br/>Simply connect devices with straight cables, whether it is a terminal or a network device.<br/>(This function does not work if the port communication configuration is set at Fixed or Link Aggregation.<br/>Ports 1 to 8 are set at MDI-X. (default))</div><div>(6) Telnet/SSH allows remote configuration changes and verifications of the Ethernet Switch.<br/>Remotely configure the PoE settings for each port (Ports 1 to 8).</div><div>(7) The connection status for each port is detected by the power saving mode, and it can suppress the power consumption to required volumes when not linked up. (Factory default: deactivated)</div><div>(8) Rapid Spanning Tree Protocol is supported, allowing to build a system with redundancy.</div><div>(9) The IEEE802.1p compatible QoS function is supported.</div><div>(10) Supports triple authentication that can simultaneously wait on IEEE802.1X authentication, MAC authentication, and WEB authentication via one port, and an authentication network which is matched to the kinds of connection terminals can be constructed.</div><div>(11) Equipped with step authentication functions, and can prevent illegal access of the terminals.</div><div>(12) Since it is equipped with authentication supplicant functions, a more robust security configuration can be configured in combination with the upper switch’s IEEE802.1X authentication function.</div><div>(13) Due to the loop detection/shutoff function, a port where loop has occurred can be automatically shut off to prevent loop failures.<br/>When a port is shut off and recovered automatically, SNMP trap can be sent to notify the incident to the administrator.<br/>Moreover, the port with a loop can be identified by loop notification on the LEDs on the main unit and referring the history of loop on the setting screen.</div><div>(14) The PoE scheduler function enables scheduling of PoE power supply control.</div><div>(15) Supports ZEQUO assist Plus. Processes from introduction to maintenance can be performed easily.</div></div> |               |                                            |                    |
| Date issued                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             | Oct. 15, 2019 | Panasonic Electric Works Networks Co.,Ltd. |                    |

## 5. Hardware Specifications

### 5-4. LED display

You can display the following items using the LED display change button.  
 Display for the connection with a connected terminal (Status mode), Display for the 1000 Mbps transmission rate (GIGA mode), Display for the full-duplex or half-duplex transmission system (DUPLEX mode), Display for ports with a loop history (Loop history mode), All port LED lamps can be turned OFF (ECO mode).

The mode at the start is called “Base mode”.

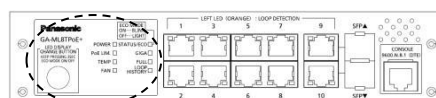

There are two types of Base modes : Status mode (factory default setting) and ECO mode.

You can change the Base mode by holding down the LED display change button (for at least 3 sec).

When the Base mode is changed normally, all STATUS/ECO, GIGA and FULL LED lamps light up at the same time. When you release the button, the Base mode is changed to the selected mode.

If the mode is changed to the GIGA mode, DUPLEX mode, or Loop History mode and the LED display switch button is not used for one minute or longer, the mode automatically returns to a Base mode (Status mode or ECO mode).

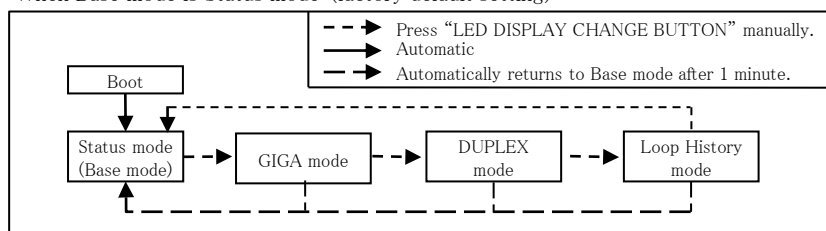

The Base mode is maintained even after the power is turned OFF.

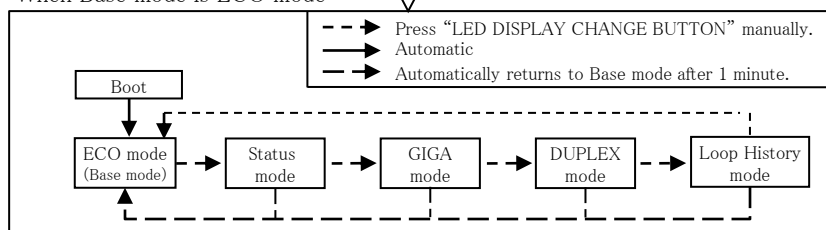

LED display change button

Switch two types of Base mode s and their LEDs in the following way:

When Base mode is Status mode (factory default setting)

When Base mode is ECO mode

LED lamps for each mode and LED lamps for ports 1 to 10 correspond as the following. (Table 1)

| Model No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | PN260893-MY   |                                            | Page 14 of 17      |
| <div>12. Prohibitions when Using the Product to Guarantee Safety</div> <div>Denotes that “Death or serious injuries might be sustained”.<br/>The manufacturer assumes no responsibility for any problems occurring when the following conditions are not satisfied.<br/>Observe the following items when using the product.</div> <div><div>(1) Do not use power supply other than AC 100 – 240 V.<br/>Deviation could lead to fire, electric shock, and/or equipment failure.</div><div>(2) Do not handle this Ethernet Switch and connection cables during a thunderstorm.<br/>Deviation could lead to electric shock.</div><div>(3) Do not disassemble and/or modify this Ethernet Switch.<br/>Deviation could lead to fire, electric shock, and/or equipment failure.</div><div>(4) Do not damage the power cord. Do not bend too tightly, stretch, twist, bundle with other cord, pinch, put under a heavy object and/or heat it.<br/>Damaged power cord could lead to fire, short, and/or electric shock.</div><div>(5) Do not unplug nor plug in the power plug with wet hands.<br/>Deviation could lead to electric shock, and/or equipment failure.</div><div>(6) Do not insert, nor drop foreign objects such as metal or combustible things into the inside through the openings, twisted pair port, console port and SFP extension slot.<br/>Deviation could lead to fire, electric shock, and/or equipment failure.</div><div>(7) Do not store or use the Ethernet Switch in places where it might get splashed with liquids such as water, in places with a lot of humidity, in places with conductive dust, or in places where there are corrosive and combustible gases.<br/>Deviation could lead to fire, electric shock, and/or equipment failure.</div><div>(8) Do not store or use the Ethernet Switch in places where it will be exposed to direct sunlight or high temperature.<br/>The temperature inside will rise, which may cause fire.</div><div>(9) Do not store or use the Ethernet Switch in places where there are lots of vibrations and impacts, or in unstable areas.<br/>it might fall, which may cause injuries and/or equipment failure.</div><div>(10) Do not put the Ethernet Switch into fire.<br/>Deviation could lead to explosion and/or fire.</div><div>(11) Do not use the Ethernet Switch in dusty environments such as on floors, underneath floors, the backside of ceilings, or wiring panels.<br/>Do not use the Ethernet Switch in very dusty areas such as in floors, underneath floors, the backside of ceilings, or wiring panels<br/>Deviation could lead to fire, electric shock, and/or equipment failure. It is recommended that the Ethernet Switch be operated in environments such as the inside of racks where it is difficult for dust to be generated.</div></div> |               |                                            |                    |

| Model No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | PN260893-MY   |                                            | Page 15 of 17      |
| <div>13. Cautions when Using the Product to Guarantee Safety</div> <div>Denotes that “Minor injuries might be sustained, or property damage might occur”.<br/>The manufacturer assumes no responsibility for any problems occurring when the following conditions are not satisfied.<br/>Observe the following items when using the product.</div> <div><div>(1) Use the bundled power cord (AC 100 - 240 V specifications).<br/>Deviation could lead to electric shock, malfunction, and/or equipment failure.</div><div>(2) Unplug the power cord in case of equipment failure.<br/>Deviation, such as keeping connected for a long time, could lead to fire.</div><div>(3) Be sure to connect the ground cable.<br/>Otherwise this might cause electrical shocks, misoperations and malfunctions.<br/>Connect the Ethernet Switch via the supplied power cord to the outlet which is connected to the ground.<br/>If the outlet is not connected to a ground, connect the ground cable to the ground terminal screw.</div><div>(4) Connect the power cord firmly to the power port.<br/>Otherwise this might cause electrical shocks and malfunctions.</div><div>(5) Unplug the power cord if the STATUS/ECO LED (Status/ECO mode) or FAN LED (Fan sensor) blinks in orange (system fault).<br/>Deviation, such as keeping connected for a long time, could lead to fire.</div><div>(6) Handle the Ethernet Switch carefully so that fingers or hands may not be damaged by twisted pair port, SFP extension slot, console port or power cord hook block.</div><div>(7) If the device is going to be mounted onto a rack, use the 2 installation brackets(for 19-inch rack mounting) which include the 19 inch rack mounting brackets (for 1 rack) and the 8 screws (for the rack installation brackets and for the main unit connections), and install the installation brackets into each of the 4 horizontal holes in the device, then securely secure it and set it up.<br/>If it is not firmly secured, then deviation could lead to falling, injury and/or equipment failure.</div><div>(8) Up to two Ethernet Switches can be connected by using the connection brackets and connection bracket screws.<br/>Attach the connection brackets to the connection bracket screw holes on the front and back panels to securely fix the Switching Hubs before installation.<br/>If the Ethernet Switches are not fixed securely, they may fall, leading to injury and/or equipment failure.</div><div>(9) Check whether the optical fiber cable connectors are contaminated with dust, etc.<br/>This might cause the optical signal to not be transmitted normally, and cause misoperations and malfunctions. If they are contaminated, make sure to clean them off, then connect them to the optical fiber ports.</div><div>(10) This Ethernet Switch is to be periodically serviced in order to maintain its performance.<br/>Please choose a product administrator, and have them be sure to implement periodic maintenance. When doing maintenance, check the inspection chart that is posted on our website which has the requisite items listed on it.</div><div>(11) When using this Ethernet Switch to design systems, use it after applying appropriate measures such as setting up redundant configurations.<br/>Communications failures might be generated due to causes such as malfunctions or misoperations while the Ethernet Switch is being used.</div><div>(12) When using this Ethernet Switch for applications which require extremely high reliability, be careful to expend all possible means to ensure safety and reliability.<br/>This Ethernet Switch was not designed nor manufactured with the intention that it be used for applications (in use with railways, aviation, and medical care, etc. whereas the influence rate due to communications failures is extremely high in regard to systems that directly affect systems and human lives) which require extremely high reliability.</div></div> |               |                                            |                    |

| Model No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | PN260893-MY   |                                            | Page 16 of 17      |
| <p>(13) Be aware of glitches which are caused in the usage environments such as age-related degradation, etc.<br/>This may vary depending upon conditions such as utilization rates and usage environments, but performance might decrease due to the age-related degradation, etc. of components. It is recommended that this Ethernet Switch be replaced about five years after it has been installed.</p> <p>(14) Be careful in regards to environmental restrictions whereby the Ethernet Switch can be used.<br/>Please isolate the business power lines and communications lines. Isolate distribution lines and other distribution lines, and low current power lines, optical fiber cables, metallic water conduits, and gas conduits, etc.<br/>Noise may be generated in the communications lines which might cause communications glitches.</p> <p>(15) Do not connect any other devices except for 10BASE-T/100BASE-TX/1000BASE-T devices to the twisted pair ports.<br/>Deviation could lead to equipment failure.</p> <p>(16) Do not insert any other modules into the SFP expansion slots except for our optional SFP modules (PN54022/PN54024).<br/>Deviation could lead to equipment failure.<br/>Check our website for the latest information on supported SFP modules.</p> <p>(17) Do not connect the console ports with any other device except for Serial communication terminal.<br/>Deviation could lead to equipment failure.</p> <p>(18) To connect a power receiving equipment supporting IEEE802.3at to this Ethernet Switch, use a cable rated Cat5e or higher.<br/>Using other cables may result in heat generation, ignition, and/or equipment failure.</p> <p>(19) It is strongly recommended that a lightning arrester (SPD) be installed on the twisted pair port side and the power supply side of this Ethernet Switch.<br/>Malfunctions might be caused due to overcurrent and overvoltage due to the effects of lightning strikes.</p> |               |                                            |                    |
| Date issued                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                | Oct. 15, 2019 | Panasonic Electric Works Networks Co.,Ltd. |                    |

| Model No.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          | PN260893-MY   |                                            | Page 17 of 17      |
| <div>14. Basic Instructions for the Use of This Product</div> <div><div><div>(1) For inspection and/or diagnosis, consult the retailer.</div><div>(2) Use commercial power supply from a wall socket, which is close and easily accessible to this Ethernet Switch.</div><div>(3) Unplug the power cord when installing or moving this Ethernet Switch.</div><div>(4) Unplug the power cord when cleaning this Ethernet Switch.</div><div>(5) Use this Ethernet Switch within the specifications. Deviation could lead to malfunction.</div><div>(6) Do not touch the twisted pair cable modular metal terminals which are connected to RJ45 connectors (twisted pair ports) or the connectors, nor place them near electrically-charged objects. Static electricity could lead to equipment failure.</div><div>(7) Do not put the modular plug of the connected twisted pair cable on objects that can carry static charge, such as carpet. Do not place it in the proximity. Static electricity could lead to equipment failure.</div><div>(8) Do not put a strong shock, including dropping, to this Ethernet Switch. Deviation could lead to equipment failure.</div><div>(9) Before connecting a console cable to the console port, discharge static electricity, for example by touching metal appliance (do not discharge by touching this Ethernet Switch).</div><div>(10) Please use this Ethernet Switch in place where ambient temperature is from 0 to 50℃ and, do not store and/or use this Ethernet Switch in the environment with the characteristics listed below. (Store and/or use this Ethernet Switch in the environment in accordance with the specification.)<div><div>- High humidity. Possible spilled liquid (water).</div><div>- Dusty. Possible static charge (such as carpet).</div><div>- Under direct sunlight.</div><div>- Possible condensation. High/low temperature exceeding the specifications environment.</div><div>- Strong vibration and/or strong shock.</div></div>Failure to satisfy the conditions above may result in a fire, electric shock, equipment failure, and/or malfunction. Such events are not covered by the warranty.<div>(*) If it is used beyond the operating environmental temperatures, then the protective devices will start working and the Ethernet Switch power will be shut off.</div></div><div>(11) Do not block the ventilator of the Ethernet Switch. Blocked ventilator induces the heat accumulation inside, causing equipment failure and/or malfunction.</div><div>(12) Operation is not guaranteed if a module other than the optional SFP extension modules (PN54022-MY/PN54024-MY) is inserted into the SFP extension slot. For the latest information about compatible SFP extension modules, check our website.</div><div>(13) When using two Ethernet Switches, do not stack them. When you place them side by side, allow for a space of 20 mm or more between them. This space is not necessary if you use supplied connection brackets.</div><div>(14) When Ethernet Switches mounting to rack, leave a minimum of 20mm space between them.</div></div></div> |               |                                            |                    |
| Date issued                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        | Oct. 15, 2019 | Panasonic Electric Works Networks Co.,Ltd. |                    |
